IHV Audit Trail - Windows

- 2025-02-28 - Industrial HiVision

As of v6.0 IHV logs events to the Windows event log. The events include:

Log in and out of Industrial HiVision Any action which results in an SNMP Set Request being sent to a device, including the MIB variable that was set, and the new value Any actions from HiDiscovery within Industrial HiVision Start of external applications All actions for which the "Edit Mode" is needed Cannot be disabled

This lesson describes how to create a custom view for IHV 6.0 events in the windows event viewer

Event Viewer

File Action View Help						
Event Views (Local) Cutom Views Application Eventy Eventy Eventy Eventy System Forwarded Events Applications and Services Lo Subscriptions	Information 19 Information 19 Information 19 Information 19 Event 1003, Office Sof General Details The Software Prot	te and Time So 03.2015 07:38:04 Off	rvice	100: 822' +) X	Actions Application	
	Log Name: Source Event ID: Level: User: OpCode: More Information:	Application Office Software Protection 1 1003 Information N/A <u>Event Log Online Help</u> 11	P Logged: Task Category: Keywords: Computer:	19.03.20: None Classic Deepsta	View Refresh Help Event 1003, Office Software Protection Platform Service Event Properties Copy	•

Hit the Windows-Key and type event viewer

Create Custom View

Filter XML
