

- 2018-02-21 - Industrial HiVision

This data is usually requested from technical support when reporting an issue.

The screenshot shows the 'File' menu of the Hirschmann Industrial HiVision software. The 'Save Backup' option is highlighted with a red rectangle. Other visible options include 'New Project', 'Run Setup Wizard', 'New', 'Connect...', 'Open...', 'Save', 'Save as...', 'Load Backup', 'Export...', 'Export Events...', 'Print', 'Print Events', 'Exit and Stop Service', and 'Exit'. The background displays a device configuration table with columns for Type, Status, and IP address.

**Save Backup** and **Load Backup** can be selected from the **File** menu.

## Backup Files
