

HiSecOS v04.0.00 released

2020-12-18 - - Firewalls

Software Release 04.0.00

New Feature supported:

- Transparent Ethernet Bridging with L2 Filter Support
- VLAN
- QoS
- FDB

Security Fix:

- FPC security fix

Open points and decisions:

- FDB: After adding static mac address to interface-1, same mac is getting learned to other interface-2 while traffic is send with same mac as source mac on interface-2
- No support of copper SFP in device, it might work with hot plug in and port goes down after reboot
- Eagle web become unresponsive, once web remain open for more than a day
- Vlan tagged packet not getting filtered by l2 filtering if matched on vlan interface with untagged egress port
- After creating around 1000 L2 filter rule via CLI, web of L2 filter rule gives error to contact to manufacturer
