Can I update my HiOS v02.0.x device directly to the latest HiOS v05.0.x version? e.g. v02.0.05 to 05.0.03

- 2018-02-09 - HiOS

A direct update from HiOS v2 to v5 is possible.

But in case of using PRP you need to update to v4 first.

The PRP configuration scheme has been changed and a direct update would lead to communication problems via the PRP ports.
