Network Connections

- 2018-02-21 - HiMobile

As of HiMobile version 2.0 next to devices also network connections and their properties are available.

HiMobile Home Screen

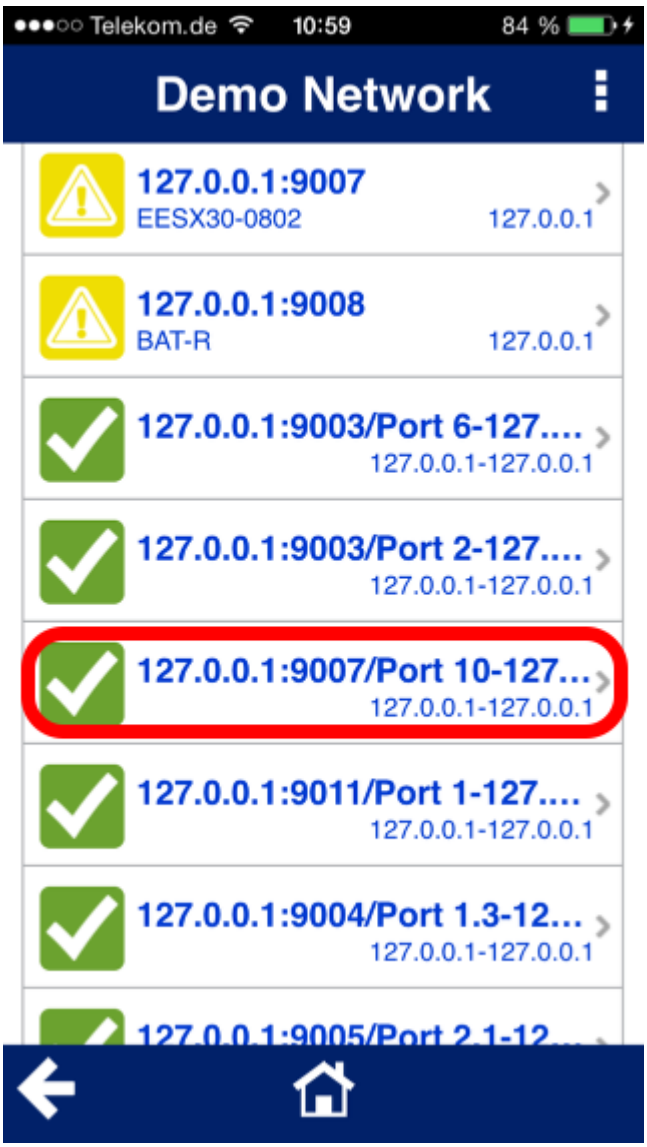

Click on Network to browse the project tree.

Project / Folders

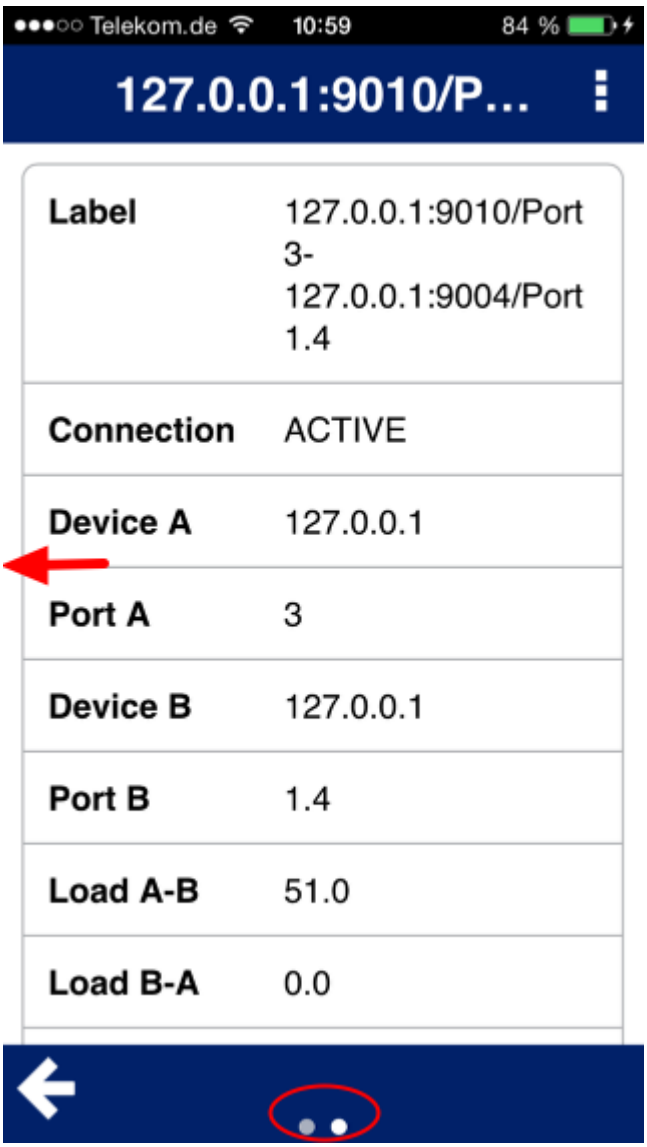

Select a project and subfolder to display the device/connections list.

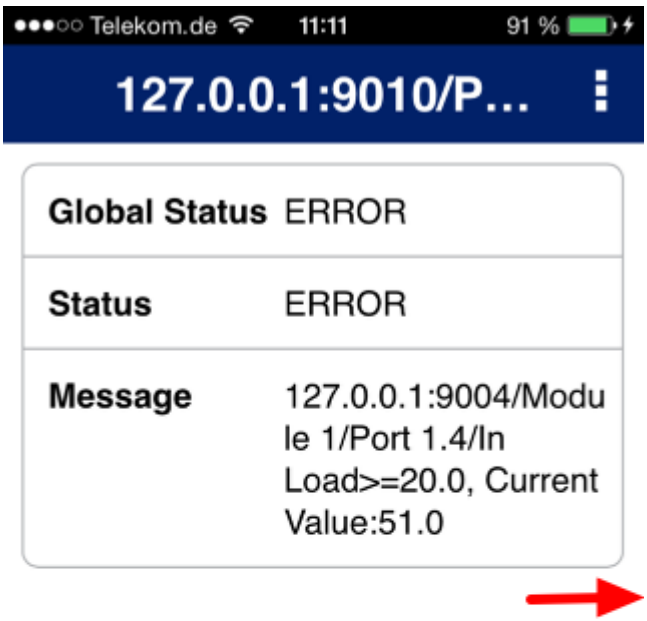

The connections can be found below the device list.

Select one to display the connection properties.

There are two screens. Wipe left/right to change between them.
