Portal Home

The screenshot shows the Hirschmann Support Center interface. At the top left is the Hirschmann logo and 'Hirschmann Support Center'. At the top right, there is a language selector (English) and a 'Contact Us' button. A user account menu is visible in the top right corner, containing 'View my profile', 'My tickets', and 'Logout' buttons. A search bar is located in the center of the top navigation bar. Below the search bar is a navigation bar with four buttons: 'Knowledgebase', 'News', 'Files', and 'Tickets'. The main content area is divided into two sections: 'News' and 'Knowledgebase'. The 'News' section displays four article cards for different months (JUL, JUN, MAY, APR) with titles like 'HiOS v07.1.01 released' and 'HiFusion v04.1.01 was released'. The 'Knowledgebase' section is organized into four categories: 'Basics (12)', 'Products (312)', 'Tools (3)', and 'Support Portal (3)', each with a list of article titles and a 'View all articles' link.

1. Your Account - edit your profile settings
2. Your Tickets - Overview of your open and resolved tickets
3. Search bar - fulltext search for tickets and knowledgebase
4. Navigation Buttons to directly switch between Knowledgebase, News, Downloads or My Tickets

5. Preview of Knowledgebase and News - shows recent added articles and news posts

Search

The screenshot shows a search interface with the query 'authentication' entered in the search bar. The search results are divided into three sections: 'Your tickets', 'Knowledgebase', and 'News'. The 'Your tickets' section shows two tickets related to MAB and radius authentication. The 'Knowledgebase' section shows 25 articles, with the first few listed below. The 'News' section shows 5 news items, and the 'Files' section shows 0 files.

Category	Count
Your tickets	2
Knowledgebase	25
News	5
Files	0

Article Title	Time
Can't get MAB to work on MACH1040	0 s
radius authentication does not work as expected	0 s
Radius Authentication for Management Access	2 Y
HiLCOS Client with Radius CA, username and password	9 M
Collect tool cannot download system info and event log	2 Y
Are Hirschmann products affected by the vulnerabilities described in BSECV-2016-3?	2 Y
Are Hirschmann products affected by the vulnerabilities described in ICESA-10-214-01?	2 Y
""Save support info"" cannot download SystemInfo and EventLog files of platform IV devices.	2 Y
How to use radius authentication for switch management access	2 Y
How to configure a Radius Profile on the WLC and include it in Logical settings	2 Y
Which algorithms for authentication and privacy at HTTPS are supported by classic switches?	2 Y
How to setup LDAP authentication on HiOS devices	2 Y

Use the search bar in the portal home to search for tickets, knowledgebase articles, news and files

How to use radius authentication for switch management access

Last updated: Feb 23, 2018

2

Subscribe

This lesson describes how to configure radius for switch management access via telnet and webinterface. The functionality is available as of release 7 for devices with L2P software and higher. Note: For webinterface configuration make sure that the password consists 8 or more characters.

Configure Radius-Server

- 1.) Click on "Create" and enter IP-address of Radius-Server.
- 2.) Configure "Shared Secret". Please note that this field will be empty after the next step because of security reasons.
- 3.) Click on "Set" in order to send new configuration to switch agent.

Optional: Configuration via CLI

Submit Ticket

The screenshot shows the Hirschmann Support Center home page. At the top right, there is a language dropdown set to 'English' and a 'Contact Us' button, which is pointed to by a red arrow. Below this is a search bar with the placeholder text 'How can we help you today?'. At the bottom, there is a navigation menu with four buttons: 'Knowledgebase', 'News', 'Files', and 'Tickets'. The 'Tickets' button is highlighted with a red box and contains the text 'Get in touch for help >'.

To create a ticket click on the 'Contact Us' button on the portal home or go to 'My Tickets' and click 'Submit Ticket'
