If you have already an account you can use the password reminder function to reset your password.

Portal Home

The screenshot shows the Hirschmann Support Center interface. At the top left is the Hirschmann logo and 'Hirschmann Support Center'. At the top right, there is a 'Contact Us' button and a user profile icon (1). Below the profile icon is a dropdown menu with 'View my profile' (1), 'My tickets' (2), and 'Logout'. A search bar (3) is located below the navigation bar. Below the search bar is a navigation bar (4) with buttons for 'Knowledgebase', 'News', 'Files', and 'Tickets'. Below the navigation bar is a 'News' section (5) with four news items: 'HiOS v071.01 released', 'HiOS v08.3.00 released for Octopus', 'HiOS v05.3.10 (RSB and Octopus Basic) has been released', and 'HiFusion v04.1.01 was released'. Below the news section is a 'Knowledgebase' section with four categories: 'Basics (12)', 'Products (312)', 'Tools (3)', and 'Support Portal (3)'. At the bottom right, there is a 'Contact Us' button.

1. Your Account - edit your profile settings
2. Your Tickets - Overview of your open and resolved tickets
3. Search bar - fulltext search for tickets and knowledgebase
4. Navigation Buttons to directly switch between Knowledgebase, News, Downloads or My Tickets

## 5. Preview of Knowledgebase and News - shows recent added articles and news posts

Search

The screenshot shows a search interface with a search bar containing the text 'authentication'. To the right of the search bar are a close button (X) and a 'Go' button. Below the search bar, there are three tabs: 'Your tickets 2', 'Knowledgebase 25', and 'News 5'. The 'Your tickets' tab is currently selected, showing two results: 'Can't get MAB to work on MACH1040' and 'radius authentication does not work as expected', both with a '0 s' timestamp. Below these results is a link to 'View all 2 results'. The 'Knowledgebase' tab is also visible, showing a list of 25 articles. The first few articles are: 'Radius Authentication for Management Access' (2 Y), 'HiLCOS Client with Radius CA, username and password' (9 M), 'Collect tool cannot download system info and event log' (2 Y), 'Are Hirschmann products affected by the vulnerabilities described in BSECV-2016-3?' (2 Y), 'Are Hirschmann products affected by the vulnerabilities described in ICESA-10-214-01?' (2 Y), '""Save support info"" cannot download SystemInfo and EventLog files of platform IV devices.' (2 Y), 'How to use radius authentication for switch management access' (2 Y), 'How to configure a Radius Profile on the WLC and include it in Logical settings' (2 Y), 'Which algorithms for authentication and privacy at HTTPS are supported by classic switches?' (2 Y), and 'How to setup LDAP authentication on HiOS devices' (2 Y). A link to 'View all 25 results' is at the bottom of the Knowledgebase section.

Category	Count
Your tickets	2
Knowledgebase	25
News	5
Files	0

Article Title	Timestamp
Can't get MAB to work on MACH1040	0 s
radius authentication does not work as expected	0 s
Radius Authentication for Management Access	2 Y
HiLCOS Client with Radius CA, username and password	9 M
Collect tool cannot download system info and event log	2 Y
Are Hirschmann products affected by the vulnerabilities described in BSECV-2016-3?	2 Y
Are Hirschmann products affected by the vulnerabilities described in ICESA-10-214-01?	2 Y
""Save support info"" cannot download SystemInfo and EventLog files of platform IV devices.	2 Y
How to use radius authentication for switch management access	2 Y
How to configure a Radius Profile on the WLC and include it in Logical settings	2 Y
Which algorithms for authentication and privacy at HTTPS are supported by classic switches?	2 Y
How to setup LDAP authentication on HiOS devices	2 Y

Use the search bar in the portal home to search for tickets, knowledgebase articles, news and files

## How to use radius authentication for switch management access

Last updated: Feb 23, 2018

2

  [Subscribe](#)

This lesson describes how to configure radius for switch management access via telnet and webinterface. The functionality is available as of release 7 for devices with L2P software and higher. Note: For webinterface configuration make sure that the password consists 8 or more characters.

### Configure Radius-Server

- 1.) Click on "Create" and enter IP-address of Radius-Server.
- 2.) Configure "Shared Secret". Please note that this field will be empty after the next step because of security reasons.
- 3.) Click on "Set" in order to send new configuration to switch agent.

### Optional: Configuration via CLI

Search or browse the knowledgebase for frequently asked questions, howtos etc.

1. Navigation is possible by clicking the breadcrumbs.
2. You can subscribe to category folders and articles to get notified about new content or article updates, share the article via eMail or download as PDF.
