

## How to add an Industrial HiVision license

- 2022-01-10 - Industrial HiVision

This howto describes the procedure to add a license in Industrial HiVision (IHV).

Prerequisites: Installed Industrial HiVision, eMail with IHV license code

### Open IHV Preferences

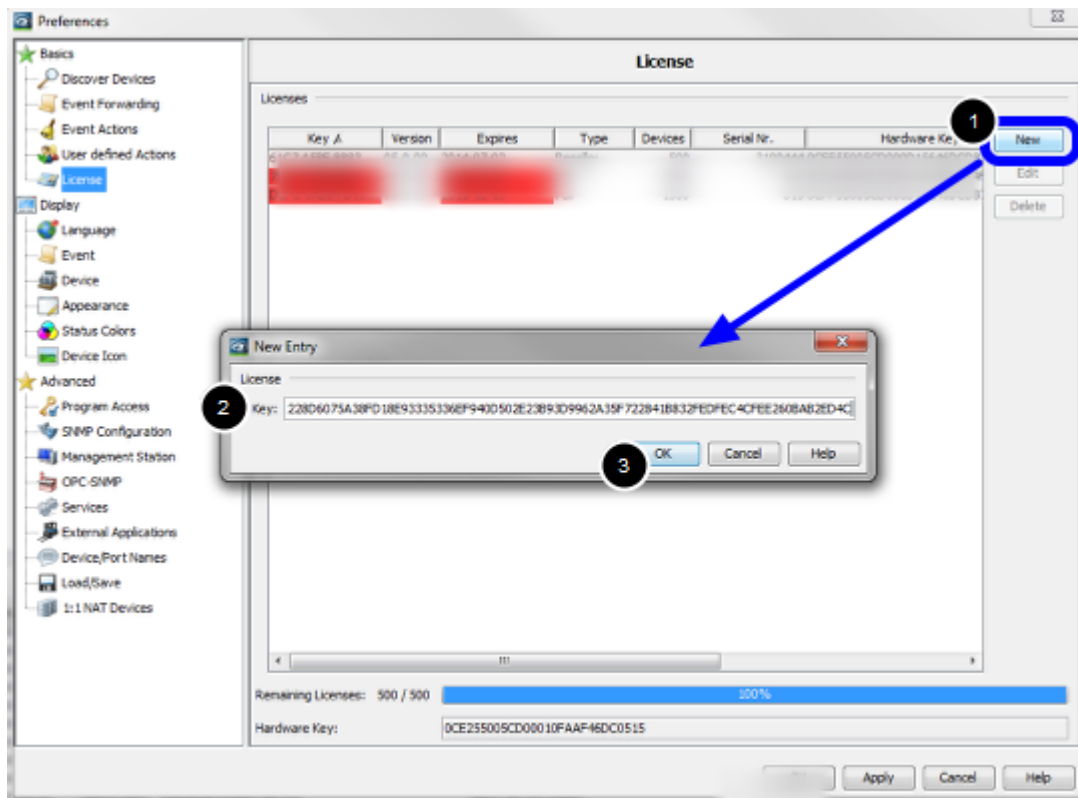

Start Industrial HiVision and open the '**P**references' dialog (Configuration - Preferences)

### eMail including License Key

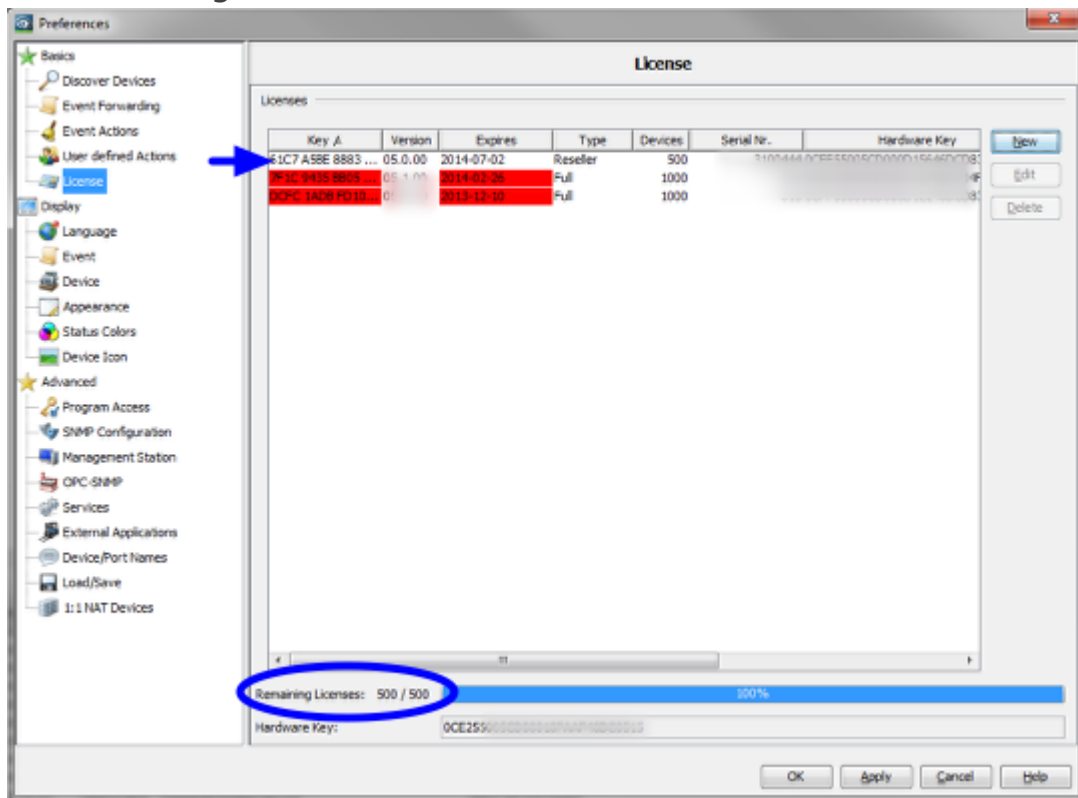

Copy the license code from the received eMail.

### License Dialog - New Entry

1. Click 'New' to add an entry
2. Paste the license key from the received license eMail
3. Close the pop-up window with 'Ok'

### License Dialog - check for valid license

Valid licenses are shown without background color, red entries are expired.  
Below you can see the total number and remaining licenses.

Event log message

Unacknowledged Events									
ID	Ack.	Type	Category	Time	User	Source	Component	Message	
69	<input type="checkbox"/>		User Intervention	2014-03-17 16:03:53	Admin	Industrial HiVision		Preferences Modified by User	
68	<input type="checkbox"/>		License	2014-03-17 16:03:53		Industrial HiVision Service		Industrial HiVision is licensed	
67	<input type="checkbox"/>		License	2014-03-17 16:03:53		Industrial HiVision Service		Number of Licenses: 3200	

After closing the preferences dialog you can see an event log with the new number of licenses.
