## HiSecOS v04.1.01 released

2021-06-09 - - Firewalls

Software Release 04.1.01

-----

New Feature supported: -L2 Stateful Firewall on EAGLE40

Security Fix: None

Open points and decisions:

- FDB: After adding static mac address to interface-1, same mac is getting learned to other interface-2 while traffic is send with same mac as source mac on interface-2

- No support of copper SFP in device, it might work with hot plug in and port goes down after reboot

- Eagle web become unresponsive, once web remain open for more than a day
- Vlan tagged packet not getting filtered by I2 filtering if matched on vlan interface with untagged egress port

- After creating around 1000 L2 filter rule via CLI, web of L2 filter rule gives error to contact to manufacturer
