

## HiView 04.2.04 released

2023-12-13 - Christoph Strauss - Software Products

### Issues fixed

- You can find the problems, workarounds and fixes related to this release in the issue list.

### Fixed in 04.2.04

- Re-enabled unsecure SHA1 hash algorithm to continue backward compatibility to older firmware versions, which only support SHA1.
- Updated SSH library to support SHA256 for opening CLI sessions to new firmware versions, which only support SHA256.
- Updated java to version 11.0.21.
