Cannot downgrade my device to versions lower than 09.1.10 Christoph Strauss - 2024-03-28 - Classic Switches

Due to the discontinuation of components, we had to replace a flash memory component, which affects the software version that can run on these devices.

## Affected products:

Please note that this notification is valid only for devices manufactured from 2024. If your device was manufactured before 2024, your device can be downgraded to any software version.

• MACH1040 (942004XXX)

| Product   | Production Date                                 | Hardware<br>Revision           | Valid Software Range   |
|-----------|---|--------------------------------|--|
| MACH 1040 | First Market<br>Introduction –<br>December 2023 | Revision 1 (with old<br>flash) | All software versions  |
| MACH1040  | January 2024 -<br>Present                       | Revision 2 (with<br>new flash) | 09.1.10 - Latest version<br>(Any downgrade below<br>09.1.10 is not possible) |
