

Which algorithms for authentication and privacy at HTTPS are supported by classic switches?

- 2018-02-09 - Classic Switches

The classic switches with release 9.0.0 support for HTTPS access following combinations:

prio	ciphersuite	protocols
1	AES128-SHA	TLSv1
2	RC4-SHA	TLSv1
3	RC4-MD5	TLSv1

The most secure combination is used depending on the accessing browser.
